## Foreign trade to trigger industrial uptrend in GC

**First of two articles**  
A foreign trade zone, with related domestic growth, moved a big step nearer yesterday with the signing of documents in North Carolina by Addison and Doris Brown as principal owners of the newly-formed Tri-City International Industrial Center.  
Taking over the operating role formerly scheduled for Korte Construction Co., Tri-City Center—a subsidiary of the Calumet Industrial District—will utilize Korte to construct the 120,000-square-foot Trade Zone building.  
It is hoped to start construction this fall, but the building and other preparatory steps all hinge on whether the Browns can arrange industrial revenue bond financing through Missouri and Illinois banks.

A \$1,950,000 20-year bond issue at 8 percent or less is planned.  
Talks are nearing a crucial stage, the Tri-City Regional Port—developer of Foreign Trade Zone 31—reported this week. The Port is assisting a Chicago bond firm in its effort to sell the bonds, but they will not be an obligation of the port district or other governmental bodies.  
Documents related to Zone 31 and its proposed operator were signed by Port officers at their monthly meeting Monday night after setting the stage for the signing at their August session.  
Because the Browns had not yet signed as of Monday, and because the bond arrangements are incomplete, the Port sought, and obtained a ten-day

## Curfew voted

**By MICK STRANGE of the Press-Record**  
The Venice City Council Monday night enacted a new curfew ordinance which Venice Mayor Tyrone Echols said will be strictly enforced by the police department.  
Children under 14 years of age will not be permitted anywhere but in their homes from 10:01 p.m. until 6 a.m. Sundays through Saturday, inclusive. Exceptions will be if the child is with his parents, legal guardian or a person 18 years of age approved by the parent or guardian; or on his way home from officially scheduled school functions.  
The ordinance sets times and conditions for minors over 14 years of age and under 17, similar to the one for 14-

year-olds, except the curfew deadlines are later.  
Between 11 and 12, the minors must be at home between 12:01 and 6 a.m. on Saturday and Sunday; and between 11 p.m. and 6 a.m. daily after Sunday.  
The new ordinance also holds parents, legal guardians, operators of businesses and others accountable who knowingly permit a person to violate

## Meetings set on school pay plan

Ratification of a new agreement may be considered tonight by Teachers Federation Local 743 and at the next Granite City School Board meeting at 7:30 p.m. Tuesday, Sept. 18.  
Teachers will assemble at 7:30 tonight in the auditorium at Granite City High School South to learn of progress in talks that were continuing this morning.  
Tentative agreement was reached Sept. 5 on the amount of funds to be provided for pay and fringe benefits in the 1979-80 and 1980-81 school years, enabling fall classes to begin Sept. 7.  
The task of developing a specific salary schedule continued during the weekend and this week.  
Nearly all differences had been resolved by today, and discussions were being conducted on what was viewed as a relatively minor point, the firm issue on the negotiating team's agenda.

Lazerson (above), 48, SIUE vice-president and provost, as the temporary president is being acted upon by the SIU board today; a national search is to be made to fill the post permanently. SIUE President Kenneth Shaw has advanced to the new top position of SIU chancellor. Lazerson's goal is excellence of learning in a region with widely differing needs.

**NORTH-SOUTH SOCCER BATTLE** at Granite City high school sports complex on Pehling Road Tuesday evening. The annual varsity game was the first use of the \$70,000-plus lighting system newly installed at the baseball-soccer facility. Paid for with public donations and Granite City Township funds, the lights allow night use

of the soccer and baseball fields. The game ended in a 0-0 tie. The unusual picture of the eight sets of lights was made by using a "fish-eye" lens. Details of the game are in today's sports section beginning on Page 23.

The missile broke the door glass. Damage was estimated at \$200.

## Rabies upsurge in state

In view of the outbreak of animal rabies occurring in Illinois this year, Dr. John Francis, acting director of the state health department, has stressed the importance of rabies immunization for farm cats and dogs.

He cited an instance of three cats in cases in Carroll County.

The three cats had bitten five people. When the laboratory tests confirmed the cats were rabid, all five persons had to undergo treatment for exposure to rabies. All three cats were unvaccinated farm cats.

Francis said the majority of the rabid animals in Illinois this year are skunks, and that skunks may be responsible for cases of rabies in other animals.

"For example," he said, "the owners of all three rabid farm cats reported observing skunks on their farms who were behaving abnormally." The skunks are the only probable source of rabies infection for the affected cats.

Francis reported that, at this time last year, there were 34 reported cases of animal rabies in Illinois, 18 of which occurred in skunks.

So far this year, 129 cases of animal rabies have been reported, 106 of which have occurred in skunks.

He warned that pet skunks are potential rabies hazards. "Skunks can be rabid for long periods of time before showing signs of illness," he said.

"To compound the problem, skunks, being wild animals, frequently bite or scratch their owners. In addition, there are no vaccines recommended for use in skunks."

"In fact, certain rabies vaccines used for cats or dogs may even cause rabies in skunks."

Francis said that, even though ownership of pet skunks is illegal in Illinois, it is believed that some persons have them.

He said 20,000 to 30,000 animal bites occur each year in Illinois and, so far this year, an estimated 200 persons have been treated for exposure to rabies.

Any person bitten by an animal should thoroughly scrub the wound with liberal amounts of soap and water, and contact a physician or local health department immediately.

If the biting animal is a domestic cat or dog, state law requires that the animal be confined for 10 days under the observation of a licensed veterinarian.

If, at the end of this 10-day period, the animal is healthy, the person bitten need not be treated for rabies.

If the biting animal is a wild animal, however, and either disappears after the biting incident or is captured and found to be rabid, then it is necessary for the bite victim to undergo rabies treatment.

Certain animals, such as skunks, raccoons, foxes, bats, dogs and cats, are more likely to be rabid than are animals such as opossums or rodents.

Farm cats and dogs are at greater risk than are "city" pets, since they are more likely to have contact with wild animals.

Francis said the behavior of an animal is an important factor in assessing the likelihood of rabies. Animals which bite without provocation, or exhibit abnormal behavior patterns, are more likely to be rabid.

One Illinois farmer, whose cat became rabid, reported sighting a skunk on numerous occasions during daylight hours, once on the farmer's porch and once

eating from the cat's food dish.

"This type of behavior is highly abnormal for skunks, which normally venture forth only after dark," Francis said.

"Animals which limp or display other difficulty with movement may be exhibiting neurologic symptoms or paralysis associated with rabies."

"The current total of 129 cases of rabies in animals in Illinois so far this year compares with a total of 76 during all of 1978."

"During the five-year period of 1974-1978, the highest number of cases of animal rabies reported by the end of August was 96, and the highest yearly total was 131 in 1974."

"Cases of animal rabies this year have been reported from 25 Illinois counties, with the highest numbers in Adams (35) and Pike (28) counties."

"No cases of rabies in humans have occurred in Illinois since 1954."

## Bluegrass fertilizing this month

By WAYNE SIEFFERT  
Area Horticulture Adviser

September is the right time to fertilize your bluegrass lawn if your grass needs a boost.

A double application in September or split applications in September and late October both are designed to promote an epidemic of bluegrass while crabgrass and watergrass are going to seed.

If you decide to follow the one-shot recipe, double the rate on the bag. Cool weather, fall rains and this shot of fertilizer will produce surprising results.

If you have been mowing close, change the cut to 2½ inches during the fall period. Tall mowing helps to smother small weeds while the longer grass blades manufacture more reserve energy.

If broad-leaf weeds are a big pain, use a weed and feed fertilizer. The weed killer portion will kill the broad-leaf weeds while the fertilizer stimulates nearby grass to take over the bare spot left by the dead weed. Make a second fertilizer application in late October to keep up the momentum through the spring. Be sure to use a high nitrogen lawn fertilizer for both applications.

Fertilizing again in late October is a method of maintaining momentum through the winter and early spring without the big spurt of growth in April and May. A spring application in May will maintain even growth through spring and summer without provoking many of the diseases that occur in cool, wet springs.

The challenge goal set for the 1978-79 year was \$101,100. To date, \$118,088 has been collected, the largest amount ever. The following is a breakdown of sources:

Memorials, \$30,527.  
Door to door, \$10,456.  
Individual gifts, \$6,611.  
Corporate gifts, \$2,445.  
Private employee gifts, \$7,488.

## Mayors have no plan to aid Bi-State buses

Fifteen mayors of the Illinois metropolitan area met in National City Wednesday to discuss a financial threat to the Bi-State Transit Co. which may eliminate a big part of the transportation service in this area.

The group offered no solution, but criticized the transit firm for what the mayors termed poor service and a lack of public support. The Illinois legislature has warned the area it will cut back by 66 percent last year's .58 million appropriation for Bi-State unless local matching funds are appropriated.

State Sen. Kenneth Hall told the group he was convinced the legislature means what it says and will provide no sizeable funds for the transportation firm for the next year.

Rep. Morris K. Udall announced on Nov. 23, 1974, that he would enter the 1976 presidential primaries in Vermont and New Hampshire.

## Weeds, rats, mosquitoes among Nameoki complaints

Complaints about weeds, rats and holes in the streets and roadways marked the regular meeting of the Nameoki Town Board Monday night.

Board officials said they will look into complaints that spraying for mosquitoes has not been heavy enough, and that the insects have become particularly bad in the Arlington Heights area.

A growing number of rats has become apparent in parts of the township, some residents said, and town officers said this may be due to construction of the county sewer project.

The controversial issue over the appointment of a successor to Trustee Norman Hessler, who has resigned because he moved out of the township did not come before the board, but there were indications the board may act in the matter.

delay, from Sept. 15 to 25, in submitting the final details of its request for an Urban Development Action Grant (UDAG) allocation of \$800,000.

Although it already has been approved, the grant will not be forwarded until and unless the FTZ financing is assured by banks, despite announcements to the contrary.

The grant covers an FTZ office structure, provision of fencing and other security measures, and \$100,000 deposits at the First National Bank in Madison and First Granite City National Bank to encourage home improvement loans of up to \$600,000 per bank for building rehabilitation projects in Madison, Venice, West Granite City, Eagle Park Acres, the

Cloverleaf Addition and the southern portion of Granite City. The link is the belief that the zone will broaden job opportunities, increasing the demand for housing.

Initial employment estimates are 50 to 100, not counting construction work. Many believe that the trade zone and related domestic storage, fabrication and production activity can touch off job expansions numbering in the hundreds and perhaps thousands.

Signings Monday night involved a 40-year lease to Tri-City International Industrial Center for a basic ten-acre FTZ site at the Tri-City Regional Port; an operating agreement for trade zone operations; Also, a three-party agreement be-

tween the Port, the Madison County government and its community development program, and Tri-City International Industrial Center, a license to operate the FTZ; options for the other 37 acres of the foreign zone and a 40-acre industrial park tract; and documents related to the grant.

The FTZ that has been awarded to the Tri-City Port by the federal government is the only one in the St. Louis metropolitan area.

Federal customs agents are on duty at such zones, where goods remain duty-free until they are sent into domestic commerce. The zones traditionally spin off an economic and industrial upsurge in their regions, authorities say.

the times of the ordinance. A penalty of no less than \$25 or more than \$50 for each violation is provided in the ordinance.

A plan for street improvements is to be submitted to Madison County Community Development should extra funds become available, the council was told.

Several areas such as burglar alarms that were recommended at a public meeting two weeks ago were con-

sidered, according to Mayor Echols. It was noted that there is no assurance of any extra monies coming to Venice from the county community development program.

The council agreed to ask the Southwestern Illinois Metropolitan and Regional Planning Commission to make a feasibility study for the use of the Dunbar school building.

Mayor Echols said that he, Mayor Mike Sasyk and Venice Township

Supervisor Christ Pashoff have met and feel the building should be used in the community interest.

If the study shows a positive use then the mayors and township supervisor will approach the Madison Board of Education with the plan.

The McKinley Toll bridge report for the month of August showed 42,714 vehicles crossing, for a daily average of 11,655. This is an increase over August 1978 of 931 vehicles per day.

## Jerrell Chapman, 31, dies

Jerrell K. Chapman, 31, of 2537 Center St., a native and lifelong resident of Granite City, was stricken suddenly at his home Monday and was pronounced dead at St. Elizabeth Medical Center at 3:30 p.m.

Deputy Madison County Coroner Edward Werner said an autopsy will be held to determine the cause of death.

Mr. Chapman was an employee of the commissary department at the Granite City Army Installation. He was a member of the DeMolay and was a member

of the First Baptist Church.

He leaves his parents Mr. and Mrs. Charles (Naomi) Chapman of Granite City, a brother, Ronald of Buffalo, Okla., and a sister, Mrs. Michael (Cheryl) Hauptman, Rochelle, Ill.

Funeral arrangements are given in today's obituary column.

The Civil Works Administration was found by Nov. 8, 1933, to provide emergency employment.

## Services held Tuesday for Leo Davany Sr.

Funeral services were held Tuesday morning at St. Mark Catholic Church, Venice, for Leo M. Davany Sr., 78, of 320 Broadway, Venice.

Mr. Davany died at 5:30 a.m. Sunday at Firmin Desloge Hospital, St. Louis, where he had been transferred from St. Elizabeth Medical Center.

The retired Venice city official and former acting mayor suffered an apparent stroke early Friday morning, Sept. 7.

The stroke is believed to have affected the right side of his body.

At 6:15 a.m. Friday, Mr. Davany was driving a 1976 Buick which was involved in three accidents in Granite City.

It is not known at what point Mr. Davany was stricken, but he was taken to St. Elizabeth Medical Center by two Granite City police sergeants after he struck a parked car in the 2900 block of Madison Avenue.

A moment or two earlier, Mr. Davany's car had hit a traffic signal light on the southwest corner of the Nameoki Road-Madison Avenue intersection, near Granite City High School South, but he had continued driving south on Madison Avenue.

Prior to the one-car accident, Mr. Davany's vehicle had struck the rear of a 1979 pickup truck, owned by Howard Followell Jr., 227 West Pontoon Road, a police report states.

Followell's truck was halted for a red signal light in the southbound lanes of Nameoki Road at Fehling Road.

The impact had pushed the pickup into a 1979 Chrysler, operated by Georgia J. Schmieg, Rural Route Two, Box 795A, Granite City, also stopped at the traffic signal light.

Ronald D. Barlock, 28, of 1621 Sycamore Ave., a passenger in the Followell vehicle, sustained an injury in the mishap and was taken by ambulance to St. Elizabeth Medical Center.

Robert Pieper, 8 Parkway West, owns the 1971 Comet that was struck in the 2900 block of Madison Avenue, the report said.

Mr. Davany had served as an alderman for the City of Venice over a 23-year period. He was born in Venice and lived his entire life in that community.

He is survived by two sons, Leo M. Davany Jr. of Venice and Henry Davany of Maryville; a daughter, Mrs. Charles (Patricia) Bilbrey of Glen Carbon; one brother, Edward Davany of Venice; seven grandchildren and several great-grandchildren.

## Rites held for Vern U. Hines

Funeral services were held Wednesday for Vern U. Hines, 58, of 321 Sunny Shores. He died at 5:05 p.m. Sunday.

Mr. Hines retired last year after 25 years with McDonald Douglas Corporation. He had lived in the area since 1958 and was a World War II U.S. Marine veteran.

TOOLS STOLEN Myrl Pendleton, 1512 Fifth St., Madison, discovered that sometime between Saturday and 6:35 p.m. Tuesday his house had been burglarized. Items missing included a \$150 tool set, two automatic screw drivers valued at \$50, a \$75 power saw, a \$100 black and white television and a \$200 color television.

## To meet Monday on data for home loans

Granite City Mayor Paul Schuler is to meet Monday with representatives of Lehman & Co., bond underwriters, to review the status of the city's proposal to issue low-interest mortgage loans to prospective home buyers.

Mayor Schuler said he was notified representatives of the bonding firm will arrive here Monday to discuss additional data in the city's program to sell \$10 million in revenue bonds to finance such loans for the purpose of spurring home purchases in the area.

Mayor Schuler and City Attorney Lahee Callis conferred in New York five weeks ago with representatives of Standard & Poor, bonding authorities, to

establish interest ratings for the sale of the revenue bonds, and for interest charges on mortgage loans.

The mayor said he understands the bond underwriters require further information concerning the city's program. The city is ready to proceed with the bond sale as soon as bond ratings can be established.

## STEALS REVOLVER

A burglar entered the apartment of Sandra Harper, 2011 Bryan Ave., and stole a .38 caliber snub nose revolver with wooden grips. The weapon was kept in a jewelry box in the bedroom, she told police at 8:35 a.m. Wednesday.

## Steele to push coal gasification in this county

State Representative Everett G. Steele (R-Glen Carbon) has been reappointed to serve as a member of the Illinois Energy Resources Commission by House Minority Leader George H. Ryan.

Rep. Steele is a member of the House Appropriations II Committee and the House Transportation Committee.

He also serves as a member of the House Legislative Council.

A graduate of Washington University with a degree in government, Steele before serving in the legislature was a real estate developer. The native Granite Cityan said this week, "While I am relatively a newcomer to the IERC, I am looking forward to working closely with the commission on the new energy legislation we plan to submit this fall."

"As the only legislative member of the IERC who resides in Madison County, I also plan to continue to closely monitor the 'KILnGAS' coal gasification demonstration plant, which is to be located near Wood River and East Alton."

The KILnGAS project is designed to utilize Illinois high-sulfur coal to produce electric power in an environmentally acceptable manner.

**DICK KISMAR** of Dick Kismar Insurance. He will serve as United Way Madison Commercial Division chairman for the fall 1979 drive, according to Leo Schermer, United Way Business and Commercial Group vice-chairman and Tri-Cities Area United Way General Campaign Chairman George J. Knecht.

## Course on world issues

The Institute of Lifetime Learning will offer a mini-course on major world issues for senior citizens during the fall quarter.

The seven-week program is offered as an inter-institutional venture by the Office of Continuing Education at SIUE, Belleville Area College, Lewis and Clark Community College in Godfrey, and State Community College in East St. Louis, as well as the regional chapters of the American Association of Retired Persons.

Classes will meet in the Mississippi Room of the SIUE University Center from 10 until 11:30 a.m. on Wednesdays, beginning Oct. 17 and extending through Dec. 5. Instructor is Ron Glossop, professor of philosophical studies. Registration is \$1.

Topics to be covered include potential problems concerning the Middle East and the U.S., SALT II ratification, world food and population problems, beyond Sonoma in Central America, and environmental behavior influence.

Additional information may be obtained by contacting Clyde Fisher at 692-3489.

## Students top Midwest, nation

State Superintendent of Education Joseph M. Cronin says he's pleased with Illinois SAT test results, which show state scores well above the Midwest and national averages.

The 1978 results released by the College Entrance Examination Board show that Illinois mathematics scores average 511, more than forty points above the national average of 467.

Dr. Cronin said this week, "Our math scores, all during the 1970s, have remained high — well above the national average, which has been falling — and above the Midwest average."

"Students, parents and mathematics teachers are to be congratulated for this fine performance."

"Verbal scores on the same test at 462 are more than thirty points above the national average of 427."

The superintendent noted

that Illinois Verbal SAT scores during the early 1970s dropped, but now appear to be stabilizing. He urged parents to provide more books for their children and to read to younger children.

"Parents and public libraries," Dr. Cronin said, "are key ingredients of verbal proficiency — just as important as the Illinois Board of Education's emphasis on reading and writing in the schools."

He also endorsed a Push for Excellence proposal urging parents to turn off television sets for several hours each evening to allow time for reading and study.

In addition, Dr. Cronin praised Illinois business leaders for sponsoring "Reading is Fundamental," a low-cost book distribution program which helps school children build personal libraries at home.

## To address women's meeting

The Illinois state coordinator for the National Abortion Rights Action League (NARAL), Cynthia Jeffries Little, will be the guest speaker at The National Organization for Women at the First Federal Savings and Loan Association, Edwardsville.

She will advise the group on recent state and national legislation affecting women's access to reproductive medical services, discuss the reasons behind the increase in teenage pregnancy, and report on the bombing and

burning of reproductive health clinics by extremists. According to Judy McNelly, the local chapter of the National Organization for Women works with several activist groups on strategies to keep women's reproductive health options a matter of individual choice.

Tulip bulbs from Holland will be available at the Homestead Day celebration, scheduled Saturday in Granite City.

Three varieties of bulbs in packages of 20, costing \$4 per package, will be sold by the Women's Division of the Tri-Cities Area Chamber of Commerce at its display booth.

Due to a limited number of bulbs, orders are being taken in advance of Saturday by calling the Chamber office at 876-6400.

Each purchaser of a package of bulbs will receive a colored brochure describing the method and time for planting the various species.

Lanscaping information and techniques for forcing tulip, hyacinth, crocus and daffodil bulbs for indoor planting also are featured in the brochure.

Bulbs to be offered on Homestead Day, as part of a community beautification project, include Holland's Glory (red), Golden Oxford (yellow) and Mariette (deep satin rose). The first two species bloom in April and the third in May.

**VANDALIZE HOUSE**

The tomato weighs in at two and three quarter pounds and is 19 inches around. Strack said that his tomatoes averaged two pounds each this year and that it was a bumper crop.

## Supplemental income varies

(Office of Lieutenant Governor Dave O'Neal)

Q. My mother lives with me because she can't afford to live alone. My husband and I give her free room and board and help to support her. Would this affect her eligibility for SSI (Supplemental Security Income) payments?

A. If an eligible person is living in another person's household, and receiving support and maintenance in kind from that person, the basic SSI amount is reduced by one-third.

This reduction takes the place of counting the dollar value of the support and maintenance as income.

Q. My husband and I get SSI payments. Last month, he took a part-time job. Are we supposed to report his salary to Social Security?

A. Yes. You should notify Social Security promptly of any change in your income.

Your right to SSI checks, or the amount of your checks, may be affected by changes in the amount of your other income.

Even though SSI payments are made on a monthly basis, income for SSI purposes is figured on a quarterly basis. This means that a change in your income in any month of a three-month calendar quarter can affect the payments due for each month.

Q. My older sister has poor vision. In fact, she's almost blind. Since she has no assets or income of her own, I

thought she might qualify for SSI. Is she eligible?

A. Under SSI, a person whose vision is no better than 20-200 even with glasses, or who has a limited visual field of 20 degrees or less, is considered blind.

If a person's visual impairment is not severe enough to meet the definition of blindness, he or she might qualify as a disabled person. For more information, call any Social Security office.

Q. What are the eligibility requirements to qualify for SSI payments?

A. To be eligible for SSI, a person must be 65 or older, or blind, or disabled, and have limited income and resources.

An individual may be eligible with countable income of less than \$208.20 a month; a couple, with less than \$312.20.

An individual can have resources of up to \$1,500; a couple, up to \$2,250.

Not all income nor all resources are counted in determining eligibility. For more information, contact your nearest Social Security office.

**VEHICLE LOOTED**  
Items valued at about \$377 were stolen from the locked vehicle of Steve Wysong, Kokomo, Ind., parked in the 1800 block of Cleveland Boulevard, early this week. Taken were a console-mounted power booster, 14 cassette tapes, four speakers and a wristwatch.

## World of Scouting program under way

The Uniwah District (Quad Cities) of the Cahokia Council, Boy Scouts of America, has announced the start of its "Wonderful World of Scouting" program.

During September, all grade schools, public and parochial, will work with the Cub Packs and Scout Troops to host a "School Night for Scouting" to invite those boys and parents that are interested in Scouting.

"By nature, young boys are bashful and seldom are aggressive in joining anything without a special invitation," Pat Foote, council vice president, reported. "Yet, reports show us that three out of four boys would like to be part of Scouting. So, we are going to remedy this by inviting those boys to join."

Cub Scout or Boy Scout will receive a special patch and the new boy will receive a large iron-on decal.

The Cub Pack or Scout Troop that recruits its goal will earn a ribbon and the leader will earn a special coffee mug. The Pack and Troop that recruit the most members between Sept. 1 and Dec. 31, will receive a free certificate from Granite City-McDonald's Restaurant for the entire Pack and Troop, and families.

"This is only the beginning of many activities planned for Scouting," Foote says. "Things such as special adult training, roundtables, camporee, dinners, pinewood derby, and many others will be offered for Cub Scouts, Boy Scouts and their families."

Granite City police were advised Tuesday of a warrant being issued by police at Southern Illinois University at Edwardsville for the arrest of a local man whom they were asked to pick up.

Joseph J. Swiger, 24, of 2540 Jerden Ave., was arrested at home on a warrant specifying a charge of disorderly conduct at 2:25 p.m. Tuesday.

## Charge 2 in gas incident

Officers on patrol at 3:15 a.m. today, noting a 1974 Cougar standing in the middle of the street in the 2900 block of Yale Drive without headlights on and the trunk open, arrested two youths who got into the vehicle when they approached.

## GRANITE CITY (ILL.) PRESS-RECORD, Thursday, Sept. 13, 1979—9

### Halt for traffic; 4 charges result

Two detectives who halted a vehicle for an alleged traffic violation in the 2200 block of Madison Avenue at 1:20 p.m. Tuesday, took into custody all three occupants when beer, cannabis and a weapon allegedly were found in the car.

After the 1977 vehicle was stopped, police said a beer bottle was seen on the front floor of the passenger side, along with a six-pack of beer. A further search of the auto allegedly revealed a .45 Colt automatic pistol under the driver's seat, it was reported.

The weapon had a live round in the chamber and three live rounds in a clip, officers said. In the console compartment, an officer found a clear plastic bag containing a brown vegetable substance and seeds, believed to be cannabis, and a red plastic rolling board tray.

The two passengers, a woman and a man, were released from custody without being charged.

Booked at headquarters was Dennis P. Tinsley, 24, of 2022 Missouri Ave., driver of the car, who was charged with unlawful possession of cannabis, unlawful use of a weapon, speeding and illegal transportation of alcohol.

Tinsley was released at 4:05 p.m. Tuesday, after posting a \$100 cash bond and his driver's license.

## Assertiveness, stress, divorce, parenting workshops scheduled

Family life education is a new program being offered by the Mental Health Clinic, Quad-City Center.

What is family life education (FLE)? A spokesman explains that FLE is education for understanding and dealing with the complexities of human behavior.

Through shared experiences, participants can gain confidence in themselves, better understand their own behavior and that of those close to them, and learn to anticipate and prepare for the common stresses of life.

FLE is also education about the facts of family life—such subjects as child development, parenting, marriage and divorce, work,

maturing, retirement, and changing roles and values.

Four family life education groups—Stress Management Workshop, Survival Skills for Parents, Families of Divorce, and Assertiveness Training—are available to residents in the Madison County area, with a minimum of ten people needed for the groups to start.

Child care is available at a minimal charge.

Details of the program follow:

**STRESS MANAGEMENT WORKSHOP**—This four-week group will focus on understanding the physical, psychological and social aspects of stress, understanding how stress works on one's own life

styles.

**TUESDAYS**, Oct. 2, 9, 16 and 23, 7 a.m. to 9 p.m. at Central Christian Church, 2020 Johnson Road.

Cost: \$12 per person, or \$18 per couple.

**FAMILIES OF DIVORCE**—Adjusting to divorce is considered a difficult task for parents and children alike. Families of divorce often find themselves confronting such issues as loneliness, visitation, parental dating, and feelings of rejection. A seven-week session will be offered simultaneously, one for divorced parents and the other for children of these parents, to discuss these issues and others.

**MONDAYS**, Oct. 8, 15, 22 and 29 and Nov. 5, 12 and 19, 5:30 p.m. to 7 p.m. at Nameoki United Presbyterian Church, 1700 Pontoon Road.

Cost: \$21 per parent; \$10.50 per child.

**SURVIVAL SKILLS FOR PARENTS** (for parents of children ages 5-12) As parents, many changes occur as children enter school, both for the parent and the child. This six-week group will focus on the ways people communicate to adults and children, building a good self-image in a child, school and peers as spheres of influence, rewards and punishment, and sibling rivalry.

**WEDNESDAYS**, Oct. 3, 10,

17 and 24 and Nov. 7 and 14, 7 p.m. to 9 p.m. at Central Christian Church, 2020 Johnson Road.

Cost: \$18 per person; \$27 per couple.

**ASSERTIVENESS TRAINING**—Assertiveness is a skill that enables people to speak up for their own rights, state their own opinions, beliefs and feelings, refuse unreasonable requests, and give compliments, with all of these done in a way in which a person does not infringe upon someone else's rights. This seven-week skill building group uses exercises, homework assignments, and practice within the group to teach assertiveness rather than non-assertive or aggressive behavior.

Sessions include rational thinking, relaxation, communication skills, and listing of assertive rights—with emphasis on group cohesiveness and support at an important learning tool. A group on assertiveness will begin in October, and those interested are to call 877-4420 and speak with the coordinator of community education.

## Classes in Polish

Two non-credit classes in Polish are being offered at Southern Illinois University at Edwardsville this fall, according to Donald Shandler, director of the Office of Continuing Education.

Beginning Polish will be taught on Mondays from 7 until 9 p.m. in Room 0406 of Peck Classroom Building, beginning Sept. 10. Registration for the 12-week course is \$42.

Students taking the course will develop an understanding of the language and will be able to speak at an elementary level.

They will acquire a basic vocabulary and be able to read and write simple sentences, as well as learn something about the cultural heritage of the country of Poland.

Intermediate Polish classes are meeting on Thursdays from 7 until 9 p.m. in Room 2406 of Peck Classroom Building. The first class was held Sept. 6. No class will be held Sept. 22.

Registration for the 12-week course is \$42. This course will enhance the student's ability to understand, speak, read and write the language.

Additional information on the language classes or other classes offered by the Office of Conferences and Institutes may be obtained by telephoning 692-2660.

## APA pet adoptions Saturday at village

The Association for Protection of Animals will hold its monthly pet adoption clinic from 10 a.m. until 3 p.m. at the temporary shelter in Nameki Village Shopping Center.

The small shelter is located between Gasen Drugs and The Fabric Store. JoAnn Hommert, adoption supervisor for the non-profit humane group, said several types of puppies will be offered for adoption Saturday, including part German Shepherd and Labrador and part Schnauzer pups.

Also to be shown Saturday are:

A full blooded 1-year-old female Dachsund, a 9-month-old mixed breed puppy, three part-Persian gray kittens, a calico kitten, a white female adult cat, and a black and white kitten, among other pets.

Although the animal will not be at the shelter during the clinic hours on Saturday, the APA will have available

for adoption a white German Shepherd female, which is 2 years old, housebroken and gentle, Mrs. Hommert said.

Families or individuals interested in adopting the pet may contact an APA volunteer at the adoption shelter for additional information, she advised.

Mrs. Marty Bridges, an APA co-president, said the volunteer humane group's permanent shelter has been erected at the building site on Old Alton Road.

Sufficient funds are available to pour concrete and install a septic tank and plumbing in the near future, she said.

The APA is continuing to seek contributions from the public to help complete the shelter, which will house unwanted, neglected and abused pets that come to the group's attention.

Donations may be sent to: APA, Post Office Box 1311, Granite City, Ill. 62040.

## Girl, 8, hurt in auto-bike mishap

Grace J. Stroup, 8 years old, 2141 Delmar Ave., sustained injuries at 6:35 p.m. Tuesday when the wheel of her bicycle apparently was struck by a passing car.

The girl was taken by her mother to St. Elizabeth Medical Center where injury to the right leg and knee pains. She was x-rayed and admitted.

Rose Ann Liddell, 26, of 2207a Grand Ave., was driving south in the 2100 block of Delmar Avenue when she heard a group of people yelling for her to stop, saying that she had hit a bicyclist, the motorist told police.

"One witness said the girl had halted her bicycle facing east between a motorcycle and another vehicle, both parked at the curb, and Mrs. Liddell's auto apparently struck the front tire of the bicycle, the impact knocking the girl to the ground."

"Another person said the child may have come from between the two parked vehicles and struck the side of the Liddell car."

## Energy grants offered

The Illinois Coal and Energy Development Bond Act, administered by the Illinois Institute of Natural Resources, will provide \$5 million in state bonds to promote the development of alternative energy technologies.

Gov. James R. Thompson said this week, "Illinois is a leader in efforts to conserve existing reserves of nonrenewable fuels and to develop clean, economical alternative energy resources. These funds will help accomplish this goal."

## '04 theme at inauguration of president

An outdoor Mass in St. Louis University's Frost Campus quadrangle will launch student-oriented festivities designed for the Monday, Sept. 17, presidential inauguration of the Rev. Thomas R. Fitzgerald, S.J.

Father Fitzgerald will be the principal celebrant and homilist of the Mass. Students from all three university campuses will participate in the liturgy.

Mike Howland, president of the Student Government Association, said Frost Campus classes scheduled to begin from 11 a.m. through 3:10 p.m. will be canceled, so that students may attend the 11:30 a.m. Mass and the afternoon activities.

A student picnic with the sound and flavor of the 1904 St. Louis World's Fair, in keeping with the city's 78th anniversary observance, will follow the event, will follow the Mass.

"The activities planned jointly by the SGA, Campus Ministries and Student Affairs," says Howland, "will provide opportunity for spiritual reflection as well as a festive inauguration celebration. We hope to create an atmosphere that will be conducive to the initiation of a happy, longlasting relationship between Fr. Fitzgerald and the entire university community."

Picnic fare will include hot dogs, lemonade, iced tea and ice cream cones, all popularized by St. Louisans 75 years ago.

Strolling musicians from the St. Louis Ragtimers, dressed in straw hats and red and white jackets, will quicken the old-time atmosphere, along with music by the Home Grown Harvest Band, a bluegrass group.

The formal presidential inauguration will be held the same day at 7:30 p.m. in the St. Louis Symphony Hall, Grand Boulevard, followed by a reception.

### New type of crop insurance now available

As the cost of producing crops climbs higher and higher each year, most farmers are acutely aware of the impending hazards of nature that can either rob them of their working dollars or destroy them financially, states Donald E. Rathbun, district director of the Federal Crop Insurance Corporation.

He added that he is glad to announce a breakthrough with the FCIC program, a change that can "more effectively protect this higher investment in producing crops. The change will be beneficial to all farmers and farm operations in the three main crops of wheat, corn and soybeans."

Rathbun continued, "One of the major changes has been the fact that FCIC offers nine different options and ways of protecting the investment on a single crop."

"The changes start with the fall wheat planted in 1979 and the spring crops planted in 1980."

"Sign-up for 1980 wheat ends Sept. 30, 1979."

"Most of our wheat claims turned in for the 1979 crop year have been worked in the local counties. There were more indemnity claims filed on wheat in 1979 than were filed in 1978."

"Adjusters are in the field working on corn and soybean claims now. The outcome in raising a crop is always a question until the crop is in the bin."

More information concerning policy changes may be obtained by contacting the Madison County office on Jamestown Road North, Breese 62230 (526-4888).

## SIUE one of 10 colleges checking their effectiveness

Southern Illinois University at Edwardsville is one of 10 higher education institutions selected to participate in a new academic program evaluation project sponsored by the American Association of State Colleges and Universities (AASCU).

Marina Buhler-Miko, project director and director of the association's Resource Center for Planned Change, said the project will help participating colleges and universities determine how well they teach basic skills.

The other nine AASCU participants are: Ball State University, Indiana; California State University, Chico; North Adams State College, Massachusetts; Ramapo College, New Jersey; the State University College at Potsdam, New York; the University of Nebraska at Omaha; Wayne State College, Nebraska; Western Carolina University, North Carolina; and Western Kentucky University.

Institutions conducting the four-state evaluation will examine how well they teach

students to communicate, quantify, analyze, and synthesize.

During the next two and a half years, faculty and administrators will define the four skill areas for their institutions and students, establish levels of performance in each skill area, and determine where in the curriculum and university programs students are taught these skills.

Finally, they will design and conduct an evaluation of their institution's ability to meet its definitions of the four skill areas.

At SIUE, the academic program evaluation project will be under the direction of Earl Lazerson, vice president and provost.

"The institutions chosen to participate represent the diversity of AASCU members in terms of size, region and educational mission," Marina Buhler-Miko said. "Because of the diversity of AASCU institutions included in this project, the Resource Center anticipates that a variety of definitions and practices specific to each institution's educational

mission will emerge."

She said other criteria used in the selection process included the capability of the institution's leadership to manage change, evidence of faculty and administrators' interest in the project's methods and goals, and the willingness of the institution to build quality education programs.

The final selection was made from 17 mini-proposals reviewed by a five-member panel of experts. An evaluation specialist, an Educational Testing Service representative, and AASCU member presidents and vice presidents were included on the panel.

AASCU's Resource Center for Planned Change is administering the \$445,000 grant from the Fund for the Improvement of Postsecondary Education of the U.S. Department of Health, Education, and Welfare.

The center has served the 340 member state colleges and universities for four years as a catalyst to institutional development and change.

## Meeting will explain sewer grant program

The Illinois Environmental Protection Agency will host a series of information meetings to explain the public participation requirements for communities obtaining federal funds for planning local wastewater treatment facilities.

This new federal requirement applies to communities that have received or applied for a Step 1 planning grant since Feb. 16, explains IEPA director Michael P. Maury.

The area meeting will be held at 7:30 p.m. Tuesday, Oct. 6, at the Collinsville

Holiday Inn, 170 and Route 157.

Technicians from the IEPA will review the grant program, explain the federal requirements for public participation in planning of wastewater treatment facilities, and suggest to local officials how they may implement a program to obtain local support and cooperation for local financing.

This discussion should be of particular interest to communities planning to apply for a grant, Thomas Wallin, manager of the IEPA grants program, comments.

## Park district plans Hermann winery trip

Reservations will be accepted starting Friday for the Granite City Park District's second annual one-day trip to Hermann, Mo.

The chartered bus will leave the Wilson Park Ice Rink at 7:30 a.m. Saturday, Oct. 20, and return about 5 p.m.

Cost of the bus transportation will be \$8 which must be paid at the time a reservation is made at

Wilson Park office, according to Harold Brown, director of parks and recreation.

Residents of the park district will have first choice of reservations, with non-residents being accommodated if possible, he said.

The excursionists will tour the Stone Hill Winery that is located high on a hill overlooking the picturesque

town of Hermann.

After the arched underground wine cellars are visited, the tourists will be served free samples of wines and grape juice at the patio tasting area.

Located on the grounds near the winery is an old barn in which a crafts festival will be staged. Craftsmen will display their wares and cheese and

sausage will be available for purchase.

Since last year's trip, a German-style restaurant, Vintage 1847, has opened on the lower level of the barn, where lunch may be obtained, Brown advised.

Schnitzel, sauerbraten and bratwurst are among the foods featured there.

Further information is available at the Wilson Park office.

## Set hearing on traffic charges

After seeing the driver of a vehicle with a Missouri license plate allegedly disobey a traffic control device at Niedringhaus Avenue and Route 3 at 3:25 p.m. Monday, an officer stopped the auto and arrested Carl L. Clark, 2929 Cayuga St.

He was charged with driving while his license is suspended and disobeying a traffic control device. After Clark was taken into custody, it was learned a warrant, issued Dec. 6, 1978, still was in effect against the same man.

The warrant cited Clark with failure to appear on a 1978 charge of driving while his license was suspended.

A hearing date of Oct. 19 was set and he was released on payment of a \$250 cash bond.

## Gateway revision needed; also, a bigger local role

Mixed feelings arise from a report of the Goals and Citizen Participation Subcommittee of the East-West Gateway Coordinating Council, cutting back the number of citizens involved in Gateway decisions, the proposal is on the agenda of the Executive Advisory Committee Sept. 17 and of Gateway's governing board Sept. 28.

On balance, the Coordinating Council may wish to improve its coordination by adopting the plan, sacrificing to some degree the diversity and/or distinctiveness of the viewpoints forwarded to federal agencies.

Members of the Gateway board and advisory committee probably ought to consider revising the proposed makeup for an expanded Regional Forum (the citizen panel in the governing structure).

As suggested by the subcommittee, the Forum would consist of 13 Illinoisans and 17 Missourians (six from St. Louis County, five from the City of St. Louis, two from Franklin County, two from St. Charles County and two from Jefferson County).

St. Clair County would provide a majority, seven, of the Illinoisans—three from the City of East St. Louis and four from the remainder of that county. Madison County would have only five representatives and Monroe County, one.

St. Clair is in population the largest county in Madison County but should not have majority membership on the three-county panel.

While East St. Louis is larger than Belleville, Granite City and Alton individually, its population does not justify three certain seats versus no assured representation for the other three cities mentioned.

"The location and size of the City of St. Louis justifying it out for specific membership, but the same rationale does not apply to East St. Louis. The Illinois portion of the bi-state metropolitan area has so many separate and distinct concentrations of population that single municipality, including the four largest cities, could accurately claim to be the region-wide central city. There just isn't any such city.

We also have some reservations about according Missouri four more Regional Forum positions than Illinois. The Missouri sector obviously has more territory and people, but some issues seem to bring about state versus state conflicts. We wouldn't want to see major issues decided solely by the strength of numbers; might doesn't make right.

Aside from such considerations, there is the key question of how the Gateway task forces should be selected. The task forces deal with transportation, housing, historic preservation and the environment.

The subcommittee says in the proposed resolution that "Gateway's relationship to the citizenry is a commitment to citizen participation in the region and recognizes the meaningful role that the Regional Forum has played in this area."

It resolves that "There shall be an organization of individuals who shall function as the citizen participation

## Hispanic heritage has improved Quad-Cities, nation

This is National Hispanic Heritage Week, an occasion of much significance in the Quad-Cities. Pledging comments by President Jimmy Carter and Granite City Mayor Paul Schuler are as follows:

"This country must continue to assure its many ethnic groups the opportunity to contribute their ideas, their experience, and their energies to the betterment of our society.

We must be receptive to the richness of diverse cultures, and we must also work to make sure that all Americans benefit in turn from the resulting improvements.

With the assistance of our Hispanic citizens and through our own continued commitment, these goals will be achieved.

Hispanic Heritage Week was instituted by a joint resolution Congress in 1968 to acknowledge the value of the Hispanic contribution to American society.

The term "Hispanic" is now recognized to include those Americans whose cultural or linguistic origins are Spanish or Latin American. Our Hispanic citizenry is composed of Mexicans, Puerto Ricans,

## Venice to pick 10 homes as community development projects

By MICK STRANGE

The Venice Community Development committee will meet at 6 p.m. Monday to make the final selection of 10 homes to be repaired under the community development program.

According to a spokesman, the committee has been reviewing over 200 applications.

Priority is given to elderly and handicapped persons.

The maximum that can be spent per home is \$10,000, which is an increase from \$7,500 allowed last year under the program.

The Venice rehabilitation program has \$119,024 left from last year's program that was not spent.

The committee has changed some of the guidelines used last year.

One of the changes is that when county approval is given the work will then be advertised for bids by private contractors.

# Attention doesn't bother two goalies

TONY PIERCE

By KEVIN ALLEN  
of the Press-Record  
GRANITE CITY —  
Curious person, a soccer  
goal keeper. He more  
than any other player can  
mean the difference  
between a strong team  
and a weak one.  
Like a baseball catcher,  
the action is always  
theoretically in front  
him. Like a place kicker  
in football, there are  
times when the outcome  
of a game is solely his  
responsibility.  
In the same game there  
may be stretches where

the player nearest him is  
fifty feet away, then other  
stretches where he may  
wonder if every player on  
the field isn't near enough  
to see the sweat on his  
forehead.  
Tuesday night at  
Granite City South a good

deal of the considerable  
Granite City soccer at-  
tention was focused on the  
players in the respective  
goals for Granite City  
North and Granite City  
South.  
It was the kind of  
curious mix of cir-

cumstances that is full of  
potential for dramatic  
stories with a ironic twist.  
It would be nice to be  
able to report that the  
wiley veteran was out-  
done by the upstart  
youngster. Or that the  
wiley veteran saved the

day for his new team  
against his old team.  
But unfortunately, it  
just didn't work out so  
neatly.  
What happened was:  
Tony Pierce, last year's  
outstanding goalie for the  
North Steelers, played

well, but not specu-  
lating, for his new  
team — the South  
Warriors.  
And North's goalie,  
Tracy Hickam, Pierce's  
replacement, was  
adequate. He neither  
sparkled nor fizzled.  
From the reaction of  
the spectators who stood  
two and three deep  
around the fringes of the  
field, you'd think every  
save made by either  
keeper was next to im-  
possible.  
But it was typical

# Tie leaves North, South grumbling

By PETE HAYES  
Sports Editor  
of the Press-Record

GRANITE CITY —  
Granite City North's Glenn  
Edwards left the field  
grumbling. So did South's  
David Paz. What they were  
probably grumbling about  
were missed opportunities  
that came here Tuesday  
night when the two school  
battled to a 0-0 prep soccer  
tie at South's athletic  
complex. It was the first  
game under South's new  
lights.  
The tie left North with a  
record of 2-0-1 and South with  
a 1-1-2 record. Each team is  
1-0-1 in Gateway Conference  
play.  
The game was battled out  
for the most part, in the  
middle of the field. North  
managed only six shots the  
entire contest. South got off  
10 and had the best chances  
to score. Various Warriors  
defied the laws of chance and  
hit the cross bar four times  
in the game after seeing  
openings in the North net.  
North had three true  
scoring chances. Edwards,  
moved to the front line from  
a halfback spot, had a  
breakaway on South goalie  
Tony Pierce with 5:30  
remaining in the first period,  
but his shot went over the  
goal. With 16:17, he hit the  
cross bar just above Pierce's  
outstretched hands from  
about 15 feet away. Finally,  
with 18 minutes left in the

More photos  
on page 24

game, he missed a split-  
second opening at the lower  
left-hand corner of the South  
goal.  
"I can't fault Glenn on any  
of those chances," said  
North coach Bob Kehoe.  
"For one thing, he was  
playing out of position. He's  
used to the halfback spot. He  
saw opportunities out there  
and took them. That's all I  
can ask. He always gives  
complete effort." South  
coach Gene Baker  
seemed pleased with the tie.  
"This is a moral victory for  
us," he said. "On paper,  
North had to be the favorite.  
They've got just about  
everybody back from last  
year and we are without  
three starters." Among  
those starters were Phil  
Beljanski and all-star  
David Fernandez.  
"David is the finest player  
in the state," said Baker.  
"He is our attack. He makes  
things happen. Phil is out-  
rightly a broken nose for I don't  
know how long. He has the  
experience to help settle  
down the younger players.  
We miss him out there."  
If Edwards was grum-  
bling, South's Paz and Lloyd  
Sharp must have been too.  
After a shaky first period,  
South began to control the  
game, with most of the ac-

tion in North's half of the  
field. With 12:30 remaining  
in the half, Sharp fired a  
hard shot that smashed into  
the cross bar. Inches lower  
and it would have been in the  
net. With 2:04 left, Paz came  
in from the right side of the  
goal and fired a 25-footer  
that also hit the cross bar.  
The best chances South  
had the rest of the way came  
in the fourth quarter. After  
a mad rush in front of Pierce  
during which Edwards  
missed the open net, South  
had three more chances at  
taking the lead.  
With 13:40 left, South's  
Craig Kessler took a 50-foot  
shot that North goalie Tracy  
Hickam, caught and then  
bobbled, almost falling back  
into the net. At the 12:53  
mark, Jeff Tinsley had a  
breakaway on Hickam, who  
came out of the goal and cut  
down the angle, making the  
save. With 3:30 left, Rich  
Moore had an open net  
staring him in the face when  
Hickam had come out of the  
net during a scramble. But  
the North defense came to  
the rescue and made the  
save.  
Kehoe was more disap-  
pointed with the tie than  
Baker. "I am a little  
disappointed," he said. "I  
thought we played in flashes.  
It's that way every time we  
play South. Emotions take  
over and we are very intense.  
"For that reason, I thought

# Madison kickers win first

By DOUG IRVIN  
for the Press-Record  
MADISON — The Trojan  
kickers of Madison High won  
a big one and lost another  
one — big. The one they won  
was their third season  
opener, they beat Lutheran  
High of Wood River 4-2. Last  
night's game, however, was  
a complete turnaround as  
they were rangled over by  
Assumption 12-1.  
Madison is new to this  
game and with Tuesday's  
win, they only tallied four  
victories. This will be their  
third season. "We showed  
good interest," said coach  
Gene Briggs. "We had a lot  
of kids come out. Our team  
is starting to get older but still  
a majority is juniors."

Briggs' team is comprised  
of seven seniors, 12 juniors,  
eight sophomores, and six  
freshmen.  
Tuesday's game was tied at  
the end of regulation time  
and two five minute over-  
times were played. Neither  
team scored in the OT  
periods and with the score at  
2-2, the fate of the first  
Madison game of the '79-80  
season rested on penalty  
kicks.  
Five team members from  
each club went on the field  
and faced the opposing  
keeper, one at a time, alternating Lutheran then  
Madison. Madison's second  
shot soared into the upper  
left hand corner of the goal  
untouched by Lutheran's

keeper. That was shot by  
Steve Dolnal.  
Leaving Lutheran with  
only one shot, Madison's  
Carvel Claggett drilled one  
to the left side of the keeper  
and into the net, 4-2,  
Madison.  
At halftime in the game,  
Lutheran led 1-0 on an  
unassisted goal by Cliff  
Dellamano. Two minutes  
into the second half,  
Lutheran upped its lead to 2-  
0 when Randy Willmore shot  
one to the right side of the  
goal.  
Madison, having only 27  
minutes left to retaliate, did  
retaliate. Edmund Branch  
on an assist from Byron  
Parker brought Madison to  
within one. Jim Woodson

scored from a chip shot from  
a free kick tying the ball  
game at two apiece.  
The Trojans clearly  
dominated the remaining  
time but failed to score.  
After the two overtime  
periods, Madison outshot the  
Knights 13-9 and each school  
took three corner kicks.

Lutheran made nine goalie  
saves and Madison only six.  
"We started the season off  
perfect," said the joyous  
coach, Briggs. "I'm really  
proud of 'em. Woodson,  
Branch, Parker, Ray Price,  
and Avery Crawford all did a  
fine job."

## Full slate of prep football

GRANITE CITY — A full  
slate of prep football games  
is on tap this weekend, as  
most Quads Counties and  
Gateway East Conference  
team venture out of their  
loops for non-conference  
contests.

Madison, which took a 61-8  
thrashing last week at  
Quincy Notre Dame, will try  
for its first Quad Counties  
victory Saturday when it  
travels to Breese Central for  
a 2 p.m. meeting with the  
Cougars, which lost 12-0 to  
Carlyle last week. It will be  
the only conference game

played this weekend.  
Granite City North, fresh  
from a 33-6 win over  
Cahokia, finds itself in first  
place in the Gateway East  
loop. It and Granite City  
South will each have non-  
conference games this  
weekend. North will travel to  
Collinsville Friday night for  
an 8 o'clock game. The  
starting time was originally  
set for 8:30, but has been  
pushed back. South will play  
its first home game of the  
season Friday at 7:30 p.m.  
against O'Fallon. The  
Warriors lost to Belleville  
East last week 35-21.

# Orphs show their strength once more

TROY — The Centralia  
Orphan prep cross country  
team, winner of last week's  
Granite City North  
Invitational, again showed its  
muscle here yesterday  
(Wednesday) by winning the  
Triad Invitational.  
Granite City South finished  
eleventh in the 25-team field.  
Centralia came in 16th.  
Venice placed last.  
The final team standings  
were: 1. Centralia 78,  
2. P. Allen 83, 3. East St.  
Louis 147, 4. Alton 150,  
5. Lincoln 158, 6. Belleville  
West 161, 7. Mascoutah 185,

22. Collinsville 596, 23. Civic  
Memorial-Bethalto 609,  
24. Jerseyville 644, 25. Venice  
718.  
North's Bruce DeRuntz  
was the highest finisher  
among local runners. He  
finished 15th, but Steeler  
coach Pete Robinson felt  
DeRuntz could have placed  
higher. "He (DeRuntz) was  
running about fifth most of  
the way but faded late in  
the race," said Robinson. "I  
guess he started to drop back  
about the two mile mark."  
"But this gives me some  
hope for later in the season. I

think we'll finish strong."  
South's Taylor finished  
32nd with a time of 14:55.  
Tim Geisler was 36th in  
14:59. South's star runner,  
Dave Houston, finished 44th.  
He is recovering from an  
illness and has not returned  
to his top form of a year ago  
when he was the district  
champion.  
North was without its  
number two and three  
runners, Carey Schaefer and  
Greg Gibson respectively.  
Schaefer developed a boil on  
his right foot and Jackson is  
recovering from a bout with  
a viral infection. He ran  
Wednesday, but was forced  
to drop out midway through  
the race.  
"Today just wasn't my  
day," said Robinson. I think  
we did well considering what  
we were up against." To  
make things worse, North's  
team was broken down on to  
trip back to Granite City.  
Among Gateway East  
Conference schools in the

SALTY PARKER

GC native . . .

## Salty is back in the 'Bigs'

Special to the Press-Record  
SAN FRANCISCO — Youngsters in Granite City may have heard a familiar name when they listened to their favorite sports reporter on television or radio—Salty Parker.

Yes, Virginia, there really is a Salty Parker. Parker, a native Granite Cityan, was named as first base coach of the San Francisco Giants Tuesday by newly-hired manager Dave Bristol. The reason his name is so familiar to youngsters in Granite City is that a Park District Little League division is named after him.

Parker is no stranger to baseball. At the age of 66, he is entering his fiftieth year in baseball. And he loves it. Parker was born July 8, 1913 Francis James Parker in East St. Louis. He is the oldest of three brothers. The younger are Charles and Ken. Charles lives in Granite City and Ken is a retired basketball coach living in Joliet, Ill. At the age of 10, Parker moved with his family to Granite City, where he lived until he left for Class "D" baseball. His interest in sports started at Granite City High School, where he played football, basketball and baseball. He was captain of all three sports his senior year. He graduated in 1930. "I felt better prepared for baseball," said Parker. "I gave up a four-year college scholarship to play Class D ball."

The team was managed by his uncle, Riley Parker. "I worked out with them for two days and they thought I looked good enough," said Parker. "That was the start."

Parker played minor league ball at that time

under an assumed name — Charley Francis — because he was still hoping to use that college scholarship. He wanted to pursue college, but if he played pro ball, no scholarship. But his honesty finally got the best of him. He wrote the congressman who had helped him get the scholarship and told him about it.

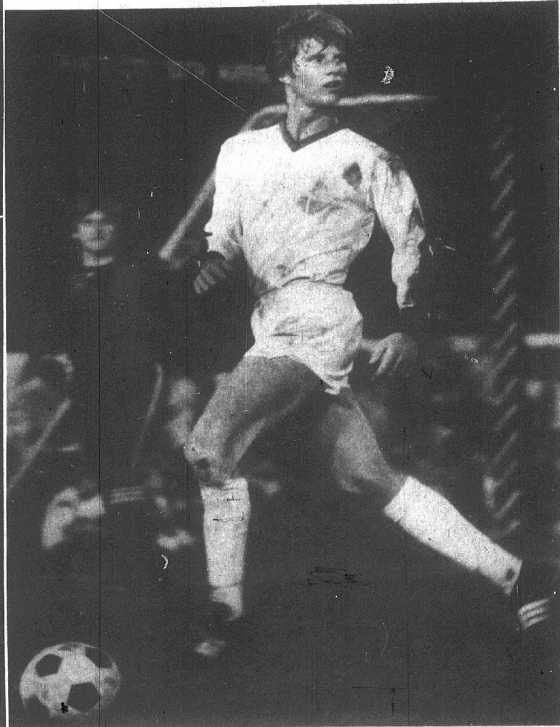

"I never did anything underhanded. I told him I was going to play pro ball." Parker's brother Kenny was a member of the University of Illinois "Whiz Kids" basketball team as the sixth man.

Parker is no stranger to big league coaching he has spent the most part of his 50 years in baseball as a coach in several teams' minor leagues systems. He has coached for the Giants, Pittsburgh Pirates, New York Mets, California Angels and Houston Astros. He also spent a short period as interim manager of the Mets after Wes Westrum was fired.

As far as a big league playing career is concerned, Salty had one — even though it was short. He spent 2½ months with the Detroit Tigers in 1936 and played shortstop in St. Louis against the old Browns. He saw action in 12 games.

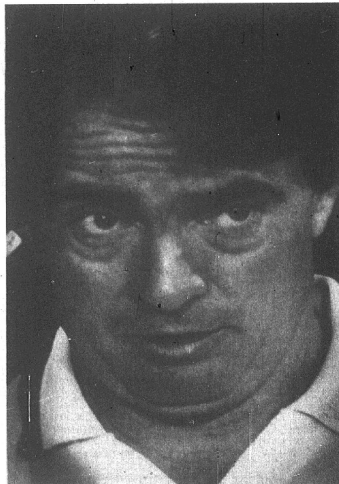

Parker said he thinks the best major league managers come from the minors. "Things weren't easy for us," he said of minor league coaches. "Maybe we're a little more dedicated and a little more determined. I can't say we worked harder, but maybe we study the game harder because things don't come easy."

Parker was in action Tuesday night as first base coach for San Francisco against the Atlanta Braves. He made it — again.

GRANITE CITY — They say a tie is like kissing your sister. It's alright, but there's something missing.

Well, Granite City North and South tied here Tuesday night 0-0, sounds pretty boring, right? No way. NO North-South game is ever boring. There was only one thing missing from Tuesday night's game at South — a score.

North had its chances. So did South. But the intense feelings surrounding the game perhaps made the players on each team hesitate just a hair. Long enough for the defenses to get back into

position.

Tuesday night's game was also the first game to be played under the newly-installed lights at South's sports complex on Fehling Road. The brilliant lights shone on a classic game. One of many classic games between two teams involved in a classic rivalry.

The three-time state champion (South) against one of the top teams in the state (North). It may go down in the record books as a tie, but there was one winner Tuesday night.

## NASL makes soccer a pain in the grass

By PETE HAYES

of the Press-Record  
TAMPA, Fla. — Tampa is going soccer crazy ROWDIE crazy to be exact. But the sport is suffering.

I went to my first North American Soccer League playoff game here last week. I was expecting great things. I had heard of how the Tampa Bay Rowdies of the NASL had turned the area into a soccer hotbed. The players are nicknamed the Rowdies. The fans are called Fannies. The pep band is called the Rowdies.

The game, played at Tampa Stadium a week ago Sunday was the second of a three-game series between the Rowdies and the San Diego Sockers for the right to advance to Soccer Bowl '79 — the NASL's version of the

### The Sporting Thing

Super Bowl. The Rowdies came into the game trailing in the series 1-0 but came out of the evening's work winning it two games to one. What's that? Two games in one night? Yup. But it seemed to me more like a hundred games. Tampa Bay scored early in the game, but the things that ensued after that brought me to the conclusion that the NASL is prostituting the game of soccer — for the almighty buck. After the Rowdies scored,

San Diego came back to tie — then go ahead. By the time regulation play was over, the score was tied 2-2. Then came a sudden-death overtime period. No one scored. Then came a shoot-out.

A SHOOT-OUT??? The NASL dreamed this one up to break ties. Each team is given five penalty kicks. The one who scores the most wins. Tampa Bay scored its first three times, while San Diego was shut out. Victory for the Rowdies — at last.

The crowd of 40,000 went berserk. Then came a 30-minute "mini-game" to break the tied series. No coming back the next day to do it with a regular game. No letting the already exhausted players have a night's rest to recuperate for the decisive game. The teams retired for

a 10-minute intermission then played two 15-minute halves. Tampa Bay won 1-0. So, after nearly five hours of soccer, it was over. My brain was fried. But I could stand all the soccer. I mean, they WERE playing and it WAS soccer.

But the paraphernalia surrounding the entire affair

was ludicrous. Take for instance that fact that the entire game, some guy from a local music store was playing the stadium's organ. Whenever a player would kick the ball high in the air, the organ player would go up then down with the notes as the ball descended to earth. Not only that, but he played during EVERY moment of the game. I guess trying to make it interesting to the predominantly-soccer ignorant crowd.

That's right. Out of the 40,000 "Fannies" in attendance, probably 25 or 30 actually knew what was going on out on the field. The rest of the crowd was made up of female groupies and people who knew that when the ball went into the net, the team scoring got a point.

I turned around before the game and asked the person behind me who Tampa Bay would start at striker. The Fannie knew not of what I spoke. He uttered a brilliant reply. "Huh? What's a striker?"

To add insult to injury, there was "Mr. Soccer Head." I couldn't believe my eyes. Before the regulation game, a little man, with a huge NASL soccer ball for a head (sort of like the creatures at Disneyland) started at one end of the field, ran circles around the warning-up Sockers and finally dived head-first into the net — to the delight of the cheering mob and the tune of the Rowdies' theme song. Ahyes, the Rowdies theme

song. Remember the "We Can Do It!" song the St. Louis Baseball Cardinals played last season well into that disastrous season? The Rowdies' song makes that one sound like Beethoven's Fifth. Parts of it were played through the game.

It's great that the NASL has finally begun to make soccer popular in this country. It's a sport Granite City and the St. Louis area has known for years. But why doesn't the league try to educate the fans and let them appreciate the thrill of the true game?

The Rowdies' slogan is "Soccer is a Kick in the Grass." Replace "Kick" with "Pain."

## North golfers win

GRANITE CITY — The Granite City North Steelers golfers brought home the city championship here Friday by downing cross-town rival South 185-166 in action at Arlington Golf Course.

Chris Andrews led the way for North, claiming medalist honors with a 31. The big gap between Andrews and North's second-lowest scorer, however, allowed South to

nearly make up the difference. Paul Eads and Rocky Abbott shot 42's for the Steelers, while South's scorers were more closely grouped. Greg Mulach led the south attack by carding a 38. John Manogian was next with a 40, while Todd Burns and Larry Holder next with 44's.

Rob Fyalka and Paul Miller each shot 44's for North, with only one score counted toward the final team total.

**THEY DON'T FORGET.** Granite City North fans erected this sign behind one of the goals at GCHS South, making reference to the transfer of former North goalie Tony

Pierce to South this season. Pierce started in goal for the Warriors against the Steelers.

## Attention

(Continued from page 23)

North-South frenzy clouding the fans' judgment, and emotion was more plentiful than objectivity.

For the most part it was a rather uneventful, mid-field-action sort of game. Both keepers were true to form. Pierce, the wiley veteran, was calm and patient. He shouted encouragement from the goal mouth when the action was downfield.

When the few shots North made on goal bore down he moved quickly and surely, snatching them up.

Hickam, the upstart

younger, also spent much of the game watching and waiting. But his chances were more frequent and less sure. He momentarily nobbled his first save, and near the end of the game, when South applied some pressure, he fell after making an initial stop, but his teammates cleared the ball before South could capitalize.

"I had plenty of butterflies at the beginning of the game," Hickam said. "But after one or two saves they were pretty much gone."

"You've got to bring your emotions and everything way down before the game starts,"

Pierce said. "Concentration is the most important thing for a goalie. You've got to be watching and yelling at your guys to pick up their men. That's how you stay in the game."

Both keepers were discussing the game just after they heard the final buzzer signal the 0-0 tie.

Hickam, looking relieved but tired, accepted the congratulations of fans and players. "That's Tracey Hickam with his first South shutout," a teammate said.

Someone threw a wad of tape at Pierce in the South locker room. "Tony Pierce with the save," the

tape thrower said. "Me and Tony are really good friends," Hickam said. "It kind of adds a little to the game when we play South with him burning us, going over to the rivals and all that, but we get along fine."

"No, I don't feel like everyone is watching me," Pierce said. "There's always a little extra when North and South play. In this town, soccer is always intense."

Not once during the game did Pierce forget and yell for a North player to pick up a South ball carrier. And not once did Hickam revert to halfback, his position last

year, and forget about being goalie. Hickam on Pierce's play: "I don't think I'm as good as he is now. But he's been a keeper all his life. Maybe by the end of the season I might be able to stay with him."

Pierce on Hickam's play: "He played well. But it takes games, games, games to be a good keeper. You just have to have the experience. Some of his positioning was off, but that's just because he hasn't played there long enough. If he stays with it he should be pretty good."

Nothing curious about that.

## South runners sweep

GRANITE CITY — The Granite City South cross country team got its season off to a belated start here Monday by routing Edwardsville 22-39 and Cahokia 16-45 in a double-dual meet. In girls' action, the South harriers beat Cahokia 26-29.

South's Jeff Taylor was the highest finisher of the day for Coach Dick Harmon, placing second in a time of 16:54 minutes over the 2.95 mile course. Teammate Dave Houston finished third in a time of 17:35. Mike Pege gave South more points by taking fourth in 17:42.

Other South finishers were Tim Geisler sixth (18:05), Joe DeKuntz eighth (18:22), Mike Gardner ninth (18:27), Ron Brown 12th (18:47), Steve Dumont 13th (19:09), Dave McLean 14th (19:11) and Jim McQuaid 16th (19:23). South's Sandy Schreiber finished second in the girls' dual in a time of 15:36 over the two-mile course. Donna Hall was third in 16:49. Peggy Flynn took fourth in 16:56. Other south finishers were Fran Scotti eighth (19:01) and Fay Tester ninth (20:08).

In a schedule change, Harmon has announced that the double dual schedule for Monday, Sept. 17 at East St. Louis with the Flyers and Belleville West has been switched to a dual at Wood River in Granite City with West.

## Venice has reason to hope

VENICE — Yes, Virginia, Venice High School DOES have a boys cross country team. It began its season Wednesday at the Triad Invitational (see related story). And for the first time in memory, the Red Devil Harriers have something to be optimistic about. Albeit cautiously optimistic.

The cross country coach at Venice is Ken Perkins. Heard that name somewhere before? He's also the head basketball coach at head basketball coach. Don't forget athletic director.

Perkins has 20 athletes out (or this season's team and three in particular give him

reason to believe his team can do better than the somewhat less-than-average showings of past years. They are senior Cary Roberts, junior Kenny Wise and freshman William Watts. They won't exactly scorch the area scene, but the two upperclassmen have demonstrated times that are in the "respectable" range for this time of the season.

"Wise has been our most consistent runner," said Perkins. "He was last season and has been in workouts for this year. His best time for this year this season has been 16:40."

According to Perkins,

Roberts has run a 17:20. He has hopes that Watts will develop into an exceptional runner. "He's run an 18:10 and is pretty decent."

As far as team strength, however, Perkins said his

squad doesn't have much. "Depth-wise, we're hurting," he said. "We just don't have the consistent runners up and down the lineup to be considered a real strong team."

# Mitchell Fall Festival . . .

## Three days of fun, food and entertainment for all

This year's Mitchell Fall Festival provided a little something for everyone, and a lot of fun for all.

There were carnival rides and games, enjoyed by young and old alike. There were booths worked by Cub Scout parents and other groups as well.

If you were hungry or

thirsty, there were pork steaks and fish and sweets and soda and sundaes.

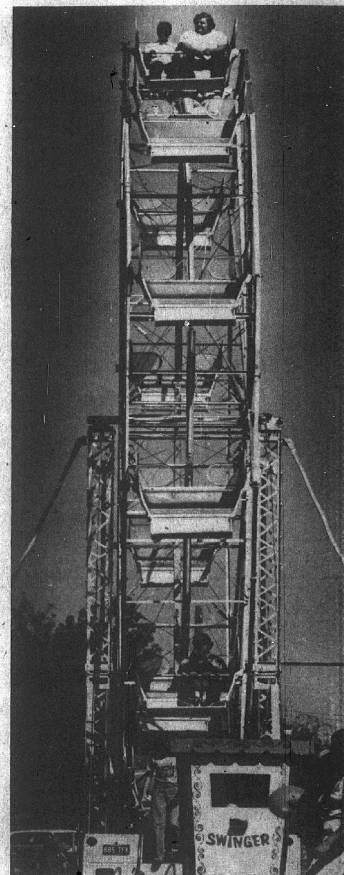

There was plenty to do and it was for a good cause. Kids are always a good cause and the Mitchell Athletic Association supports activities for the younger set. If you spent time in Mitchell this weekend, you were

entertained by area bands and dancers and baton twirlers.

The festival was smaller than some that have been held, but there was a lot of community involvement. The diversity of the activities made money for several local groups, and made for a good time for area residents.

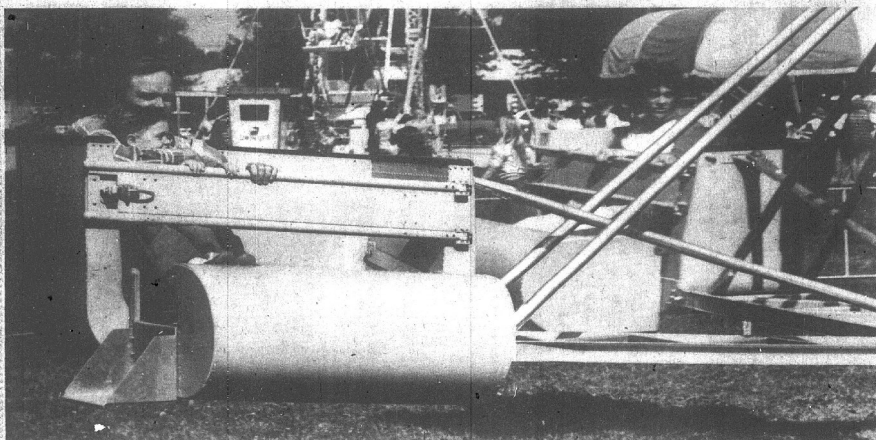

**UP AND DOWN**, and around and around. Robin Steward, 6, (above) wasn't quite sure that she liked her ride on the merry-go-round. The kids pictured at top left were anxious to get going on the swing ride, and needed no help strapping themselves in.

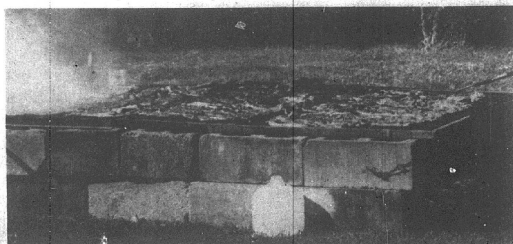

**ON TOP OF THE WORLD.** A bird's eye view of the entire Mitchell festival is enjoyed by patrons as they sit in the car at the top of the ferris wheel, a view enjoyed by many over the weekend. Below, Linda McGee (right) and Joan Houston work hard on the booth run by Cub Scout Pack 122 from the Wilson School PTA.

## PEOPLE

**THAT WAS FUN;** now, let's eat. The statement might have been made by the little boy pictured above. He seems to like spinning around and around so fast that moving is impossible. If he was hungry after the ride, there were plenty of chefs working on the pile of pork steaks below.

## Pre-school classes at South High School

The Granite City High School South home economics department is starting a new program in childhood education. Parents Utilize Pre-kindergarten Skills (PUPS) provides pre-kindergarten

classes for 3 and 4-year-old children at the high school.

A similar program is offered at Collinsville High School where teachers from GCHS South attended a training program last spring.

Children participate in classes once each week for two hours. Mothers participate in class at the same time children are in class and are required to be in attendance.

Younger brothers and sisters of 3 and 4-year-old children enrolled in PUPS are encouraged to attend the infant and toddlers classes. The infants and toddlers participate in classroom activities which encourage both physical and mental development, a school of official note.

Enrollment in classes is based on a "first come—first serve" basis. An enrollment fee of \$10 will be charged to cover cost of materials, supplies and snacks.

Children may be involved in other pre-school programs, as well as PUPS, as long as the day and time does not conflict. Those interested may call South High School at 877-1512 for further information. Applications are now being taken.

## Small business tax workshop

A workshop for small business owners will be offered by the U.S. Internal Revenue Service on Wednesday, Sept. 19, from 9 a.m. to 5 p.m. at the SIUE campus.

Location will be classroom Building 2, Room 3317. Parking has been arranged in Lot 13. The workshop is sponsored by the Southern Illinois University Center for Management Studies and the Edwardsville Chamber of Commerce.

Since the number of people attending the workshop must be limited, advance registration is required. Quad-Cityans may call Sue Moore, 800-252-2921, extension 4288, toll free for reservations.

The workshop will provide information about business taxes, tax benefits and obligations connected with a small business, and employer tax responsibilities.

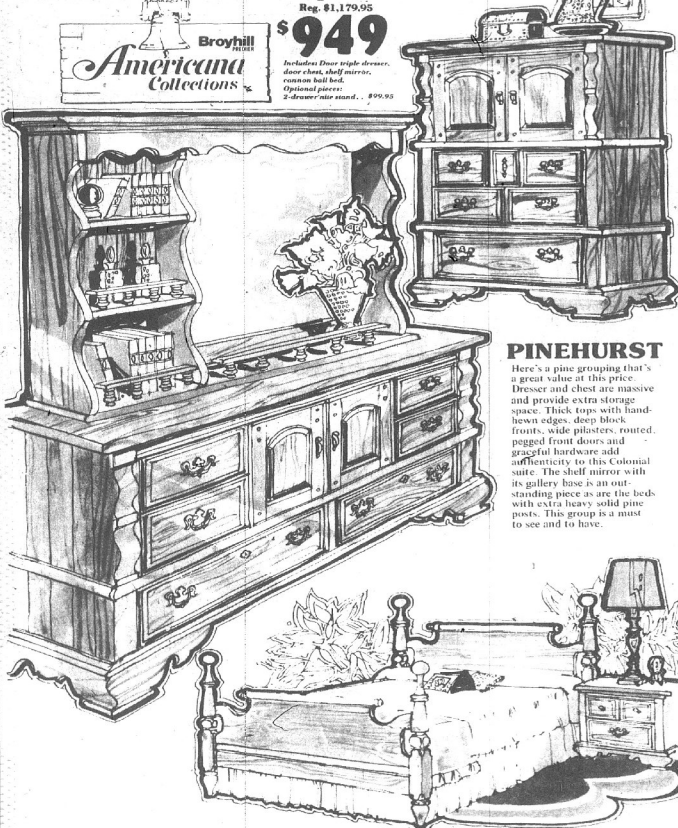

Tax advantages and disadvantages of sole proprietorships, partnerships and corporations also will be discussed.

Other topics will include what to expect during an audit, depreciation of equipment, recordkeeping, penalties a business may incur, the consequences of owing back taxes, and the examination and collection appeal rights of the small business owner.

An Illinois Department of Revenue representative will include information on the corporate personal property replacement tax.

## River trip failed to sell president's energy plan

By ROBERT ESTILL  
Press-Record

President Carter's trip down the Mississippi River may have been personally gratifying and politically successful, but he ran aground on gaining converts to his latest energy package.

One of the stated purposes for his vacation trip aboard the Delta Queen was to arouse the public to persuade its representatives in Congress to accept the Carter energy plan.

It did not work that way—at least not among folks living on the Illinois banks of the Mississippi.

Two Illinois congressmen whose districts are bordered on the west by the Mississippi River—Rep. Paul Findley, R-Pittsfield, and Rep. Tom Rainsback, R-Moline—got hardly a nibble from the voters, despite Mr. Carter's repeated dangling of his energy line.

If the Carter energy sales pitches from "Steamboat One" were to register, they should have reached constituents of Findley and Rainsback.

The Mississippi River borders more than 300 miles of their districts, stretching from the Savanna area in the northern end of Rainsback's district to the Alton area in the southern corner of Findley's.

The president peddled his package at every lock and dam and other stops along the way, but it apparently did not have its intended impact.

"I do not recall getting a single letter about the aspects of the president's trip," said Findley.

"I think that was totally lost. I do not think it got through at all, and I am not surprised."

Findley said he never viewed the trip as a serious attempt to win support for the president's energy package and "would be surprised if anybody of significance at the White House" viewed it that way.

The 20th District Republican said he does not see how the White House could have expected the trip to have any real impact on the energy program because it was the "fun and games aspect" of the trip that dominated the news coverage.

Findley said the trip did not affect his views on the Carter plan. He favors eliminating some of the "red tape" and environmental regulations that hamper construction of energy plants but is not sure that Carter's idea of creating a new federal agency, the Energy Mobilization Board, is the way to do it.

Rainsback figures the trip was a plus in that President Carter did call attention to the energy problem at every opportunity, but he said only one of his constituents was

spurred to urge him to support Carter's energy plan.

"I think it was fortunate that he addressed the energy problem every place he went," Rainsback said.

But his trip was not successful in mobilizing any hue and cry for his program.

Nor did it sway Rainsback. He is still opposed to Carter's energy mobilization board.

He would prefer to see improvements made to the Department of Energy, rather than adding another layer to the energy bureaucracy.

Another Illinois congressman returning to Washington after a month-long recess and unseated by the Carter riverboat trip is Rep. Tom Corcoran, R-Oldaw.

Corcoran's district is not bordered by the Mississippi River, but as the only Illinois Republican on the Commerce Committee's energy, and power subcommittee, he is a likely target for any letters on the energy program.

Corcoran said the president may have created greater awareness of the energy problem with his trip, but he failed to drum up support for his own program.

The only direct reaction Corcoran saw from the president's trip was when a constituent stood up at a town meeting with the congressman to urge that Congress and the president stop talking and start doing something about energy.

Corcoran said he did not receive any contacts from people wanting him to support the Carter plan specifically.

Corcoran supports windfall profits taxes on oil companies, but he does not like Carter's idea of using those taxes to provide \$88 billion over the next 10 years to encourage development of synthetic fuels.

Nor does he like creating an energy security corporation to oversee that investment, or the energy mobilization board to speed up construction of energy-producing plants.

Corcoran said synthetic

fuels should be encouraged, but not to the tune of \$88 billion.

And he does not think the government should create a corporation to win "syn-fuel" projects, guarantee prices for syn-fuels, or build projects to turn over to private industry.

The problem is that government already is too deeply involved in energy, and creating more government energy agencies is illogical, in his judgment.

If there is an energy message from the voyage of Steamboat One, it is not that the public is embracing the latest idea from the White House.

"What the public wants," Corcoran said, "is action—not more political wrangling, passing the buck, and accusing somebody else of being the villain."

### August rain below normal

Rainfall in the Quad-City area during August totaled 2.52 inches and fell short one-half inch of the month's normal precipitation figure.

Normal rainfall for the month of August is 3.02 inches.

Rain fell on nine days of the month, with the heaviest precipitation recorded on Aug. 20 when 90 of an inch of rain fell.

Rain measuring .50 of an inch fell Aug. 1, and .25 of an inch fell on Aug. 2. Other precipitation readings last month were .10 of an inch on Aug. 11; .14 of an inch on Aug. 14; .10 of an inch on Aug. 25; .20 of an inch on Aug. 24; .13 of an inch on Aug. 27 and .20 of an inch on Aug. 29.

The 2.52 inches of rain last month brought to 24.70 inches the total precipitation for the first eight months of this year, compared to a normal of 24.29 inches.

## Bob Hope on the Road to China: A Triumph

### "Clear the Wall!"

The command rang out, in English, through a battery-powered megaphone and was immediately repeated in Mandarin and, for good measure, Cantonese. It rippled up and down the Wall in French, German, Finnish, Spanish and Japanese and within five minutes — for virtually the first time in its 2000-year history — the Great Wall of China was empty.

Except for one man, Bob Hope, golf club in hand, strolled down the rough, stone walkway atop the Great Wall. Behind the television cameras taping the opening sequence of "Bob Hope On the Road to China," there were approximately 22,000 people. In front of them, only Hope.

The first American variety show to tape in the People's Republic of China, "Bob Hope on the Road to China" will kick off NBC's fall schedule Sunday, Sept. 16.

In addition to Hope, the three-hour program will star dancer Mikhail Baryshnikov, Dolores Hope, mimes Shields & Yarnell, soul singers Peaches and Herb, country and pop star Crystal Gayle, "Sesame Street's" most famous denizen, Big Bird, and an array of Chinese entertainers and classical performers ranging from opera stars to the world's only performing panda bear.

Among the Chinese performers who will be seen are three of the nation's favorite comedians, Hung Swang-Hei, Yuen Yi-Ling and Li Ching; an 8-year-old Chinese Ping-Pong virtuoso; clowns from a Chinese circus; the PLA Railroad Corps tumblers; and the highly trained singers and dancers of the Peking Opera.

Also sure to win the hearts of American viewers is an exquisitely fragile ballerina, Chun Ren Lian, who dances the pas de deux from "Giselle" with Baryshnikov — a performance for which she had two days to learn a ballet which has not been danced in China for 20 years.

For Hope, the trip — and the show — represented a unique opportunity to wander the streets of great cities virtually unrecognized and to engage in unscripted on-camera encounters with everyday

citizens, even if the services of an interpreter were required.

It also offered a new experience of a different and slightly more unnerving variety: much of the show was shot at a gala in a large Peking theater, which Hope hosted.

The old master walked on stage with his traditionally jaunty air and launched into his monologue — only to be interrupted in mid-line by a translator explaining the joke thus far. Thrown off his timing, Hope continued and then waited anxiously for the punchline to be translated. The result? A tremendous laugh.

Director-producer Bob Wynn also has a story. "In China, we were spared the usual armies of autograph hounds for the simple reason that no one had the slightest idea who Bob Hope or any of the rest of us were," Wynn recalls.

On the other hand, any time we wanted to attract two or three thousand people, all we had to do was let Big Bird loose in the streets. One relatively simple sequence in front of the new Peking Hotel — Bob and Big Bird walking on the sidewalk — turned into the biggest thing since 'Boo-Hoo.' We wound up in the middle of the road with at least four thousand people in the shot."

### TUESDAY

Marie-France Pisier stars as a French girl who falls in love with a dashing RAF pilot, played by John Beck, in "The Other Side of Midnight," based on Sidney Sheldon's novel, Tuesday, Sept. 18, on CBS.

## Salad potluck for Elkettes

The Elkettes started their new season last week by meeting for the annual salad potluck at the Granite City Elks Lodge on Niedringhaus Avenue.

Thirty-two members attended the dinner and welcomed new members, Bonnie Goldenberg and Ruth Phillips, into the club. Mrs. Dee Metcalf and Mrs. Louise Cable were co-chairmen of the event.

Preliminary plans were made for several activities

to be staged in the fall and winter months, including a bazaar in November and a Christmas party.

Mrs. Diane Schwendemann, entertainment chairman, announced a guest speaker from Southern Illinois University at Edwardsville will be present for the Oct. 2 meeting when folklore will be the topic. A general discussion concerned various exterior improvements made to the Elks Lodge, such as the

installation of indoor-outdoor carpeting and new lighting fixtures, completed under the Elkettes sponsorship. Mrs. Lois Grimm, president, was in charge of the business session, and Mrs. Margaret Rush offered invocation.

## Mornings were made for mothers

It is 6:30 a.m. As I look into my children's bedrooms and their angelic sleeping faces, one thought crosses my mind: They have to get those eyeballs open and get it in gear!

I would rather have three (well, maybe two) teeth pulled than have to get my kids up in the morning. Prying my two little darlings out of the sack is something akin to raising the Titanic—next to impossible.

Kids have an incredible knack for not doing what has to be done when it has to be done. On Saturdays, momma's little angels get up at 4 a.m., turning the house into a battle zone by 7.

School and work days are another story. Dennis refuses to open his eyes until I threaten to dump two boxes of Cheerios into his bed.

"Mom, I'm tired," he whines.

"Get up, kid. Mom just can't be late for work," I tell

him. I have told him that a million times if I've told him once. Ross is really strange. He opens his eyes immediately and begins to set a path to total destruction via Mom by doing everything except what he's supposed to be doing.

"Ross, get dressed."

"Ross, come and eat your breakfast."

"Ross, Ross?"

The child is lounging in his room, still in his pajamas, listening to his stereo with a faraway look on his face.

I threaten. "Ross, I'm gonna beat you if you don't get moving!" No response.

Now, let it be understood that my kids know me pretty well. I can threaten all day; they don't take me seriously.

They know for a fact that Mother won't beat them. I knew that bluff a long time ago.

This morning I tried the old sweetness and light

routine. I went into Ross's room. "Wake up, dear," I said sweetly. "Time to rise and shine!" I smiled, kissed his forehead and left to wake his brother.

I used the same tactic on Dennis, my seven year old

responded with, "Mom, I'm tired." Seems like I've heard that somewhere before.

Frustrated, I went back to Ross's room to see if my sweetness bit had worked on him. There he sat, listening to his stereo with that same faraway look on his face.

"That's it, you guys," I yelled, all of my resolve to handle things sweetly gone. "I'm gonna beat you both if you don't get moving...NOW!"

I'm firmly convinced that mornings are meant to drive mothers crazy and, in my case, it's working.

## Schools defend new tax; trial is set for Sept. 19

The Illinois Association of School Boards is helping defend the state's new replacement tax for the corporate personal property tax.

The IASB has been granted permission by the Illinois Supreme Court to file an amicus curiae (friend of the court) brief in defense of the tax against lawsuits brought by a number of Illinois businesses.

Several companies subject to the tax are challenging the tax on the grounds that it is unconstitutional.

"The validity of this replacement tax is of vital concern to the school boards of Illinois," says Jonathan T. Howe, a Northbrook school board member who is president of the IASB.

"Nearly every school district in the state relied to some extent on the corporate personal property tax, some of them heavily."

"The state constitution requires that this lost revenue be replaced, and we believe the tax on corporate income is a valid source."

The IASB brief will make up part of the defense of House Bill 2569, which has been signed into law by Governor James Thompson.

The bill provides for a tax on the income of corporations, partnerships and

trusts, and on the invested capital of utilities, with the revenue distributed to local governments that lost revenue when the corporate personal property tax was abolished Jan. 1, 1979.

Two lawsuits have been filed challenging the tax, but the two will be combined in a single case to be heard by the Supreme Court on Sept. 19 in Springfield.

One case was brought by a corporation and a utility (Continental Illinois National Bank and Central Illinois Light Company). The other was brought by a partnership (Paul W. Swanson and other partners in Chapel Hill Properties, of Chicago).

The suits challenge the tax on 11 separate issues, including: the governor allegedly exceeded his powers in amending the House bill; the tax raises more money than is needed to replace the old tax; and the bill shifts the tax burden from some types of businesses to other types.

"If the replacement tax is found unconstitutional, Illinois school districts will lose more than \$300 million," Howe said.

The result would be devastating. Many districts would lose 40 to 50 percent of their annual income.
